OPTIMA BERGFEE, is probably the most famous Alpine brand of strings and it's been played at countless "Stub'n'musis" for decades.

These strings have been especially designed for song accompaniment, but they're also used for solo playing in other regions of the continent.

A set of strings with a clear and straightforward sound, with excellent playability, are only two of the many positive characteristics of OPTIMA BERGFEE Strings.

An all around talent among string sets.

OPTIMA 24K GOLD STRINGS

Developed and **handmade in Germany** from the finest materials for the highest tonal demand, these are probably the most precious strings in the world.

This series reflects our **100 years tradition of string making**. The result is a string of unmatched premium quality, coated with real **24 Karat Gold**, which makes them insensitive to tarnishing or corrosion, and suitable for people allergic to nickel.

They carry a wider spectrum of overtones, dynamic range and their durability, compared-to standard strings is up to three times higher.

OPTIMA 24K GOLD STRINGS are characterized by the brilliant **SOUND OF GOLD**, very much loved by **John Entwistle**.

All the strings in this series can be manufactured in Double Ball version with a 20% surcharge.

OPTIMA RB FLATWOUND Bass Strings

For the bass player who yearn for that old school thump of the 50's and 60's, we have gone back in time, to reproduce a flat wound bass string which genuinely revives the feel and sound of an era, the way you remember it. We endeavored to make the **OPTIMA RB FLATWOUNDS** authentic in every way.

Constructed over a round core for increased flexibility and lower tension, the **OPTIMA RB FLATWOUNDS** are wound with PURE NICKEL flat wire, which is then polished to a high shine, resulting in a string that is supple and comfortable to play.

The **OPTIMA RB FLATWOUNDS** echo the classic tones of yesteryear.

CLASSICAL GUITAR

OPTIMA No.6 – Every concert guitarist should remember the name of these strings, because they bring forth an entirely new dimension. We have left behind old patterns and materials and have merely reinvented the classical guitar string.

The bass strings are made with a wholly new core material, wound with a **24 Karat Gold** plated wire, resulting in a string with an extraordinary fast response, a powerful sustainable tone very rich in overtones, where the sound spectrum remains perfectly balanced.

The set is completed with our Clear Nylon treble strings, or our highly praised Natural Carbon treble strings.

OPTIMA SILVER CLASSICS

Our new concept for the development of the No.6 series has been the basis for the further development of this popular string series. A special **Silver coating** gives to these strings high durability.

An excellent set of strings which is suitable for any guitarist.

„The OPTIMA Classics strings immediately convinced us. We love the clarity and sonic formability of the treble and the brilliance and warmth of the bass. It is a pleasure to see how the strings harmonize perfectly with us and our instruments in concerts.“

24K GOLD BANJO

The **OPTIMA Rives' World Famous 24 K Gold** Banjo Strings were created in recognition of one of the most legendary artist family in the late 19th and early 20th centuries, the Rives Sisters of Searcy, Arkansas.

24K GOLD BANJO

The Gold makes these strings soft to the touch and gives them a very warm and clear spectrum of unique overtones. At the same time they are protected against tarnishing and corrosion. These strings are traditionally **handmade in Germany**.

The **24K GOLD BANJO** strings are available as complete 5 strings sets in light and medium gauges.
